The Nation's Combat Logistics Support Agency

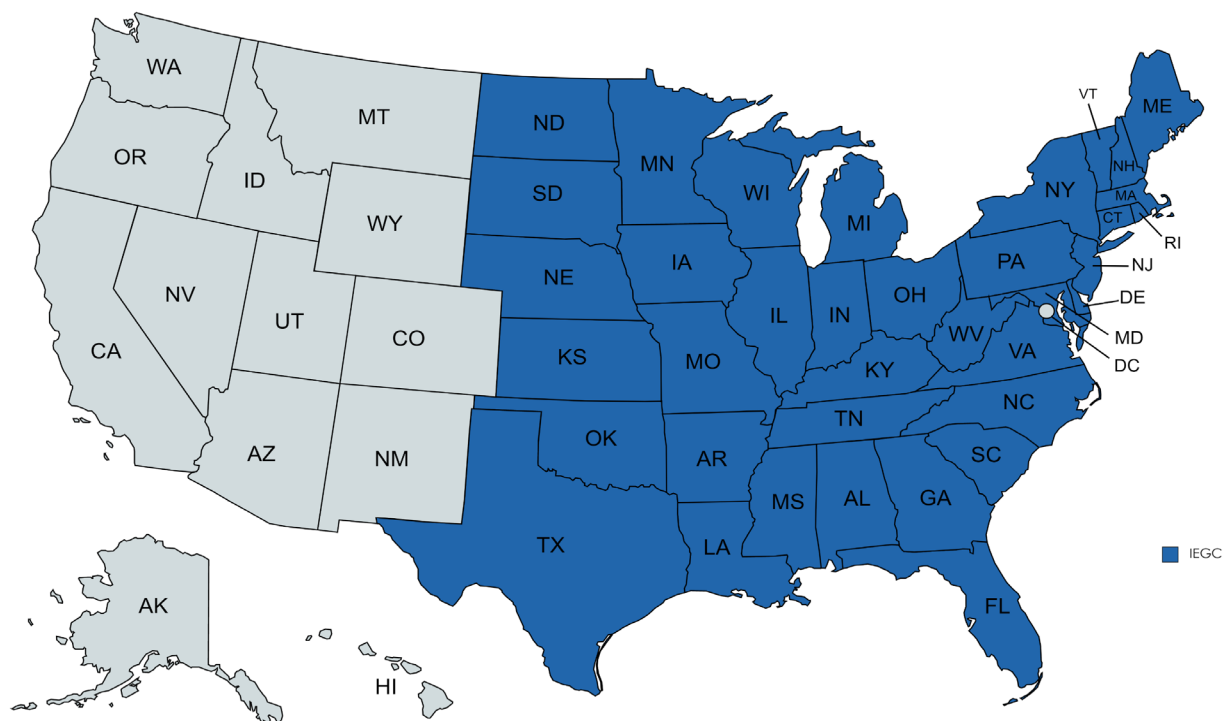

Inland/East/Gulf Coast Offshore (IEGC) SPE602-24-R-XXXX Program and Solicitation Overview

Mark A. Davis
Contracting Officer
April 2024

Program Description

- **Program:** The IEGC program covers the estimated annual domestic bulk fuels requirements under the IEGC regions and Purchase Programs, serving approximately 250 Military/DoD Facilities
- **Locations:**

Program Description

- **Requirements:**

- Distillate, Naval (F76) 9140-00-273-2377, PP 2.5a: 130,739,400 USG
- Turbine Fuel, Aviation (JAA) 9130-00-359-2026, PP 2.2a: 785,354,800 USG
- Turbine Fuel, Aviation (JP5) 9130-00-273-2379, PP 2.2c: 203,153,600 USG
- Turbine Fuel, Aviation (JP8) 9130-01-031-5816, PP 2.2a: 15,000 USG

- **Methods of Delivery:**

- FOB Origin and Destination
- Tanker, Barge, Tank Truck, Railcar, and/or Pipeline

Program Description

- **Ordering Period:**
 - Date of award through March 31, 2026
- **Delivery Period:**
 - April 1, 2025 through March 31, 2026, plus a 30-day carry-over period
- **Contract Type:**
 - Fixed Price, Indefinite Delivery/Indefinite Quantity with Economic Price Adjustment (EPA)
 - Minimum Lift Guarantee of 75% of the total original contract volume (Provision I86.12)
 - Multiple Awards
- **Competition:**
 - Full and Open Competition IAW FAR 6.1
 - Full and Open Competition after Exclusion of Sources IAW FAR 6.2
 - 42.89% of total requirement set aside for Small Business Concerns
 - Products set aside: JAA & JP5.

Solicitation Overview

- **Solicitation:**

- SPE602-24-R-XXXX
- Now on Contract Opportunities via Sam.gov
- Negotiated Request for Proposal (RFP)
- Intend to award with discussions
- System for Award Management (SAM) registration required at <https://www.sam.gov/portal/public/SAM>

- **Timeline and Key Dates:**

- Final Solicitation posted on **May 16, 2024**
- Deadline for receipt of offers is expected to be **June 17, 2024**
- Open negotiations on non-technical issues expected on **July 8, 2024**
- Awards expected to be made on or around **January 31, 2025**
- Delivery period will begin **April 1, 2025**

Offeror Submittals

- **What To Submit:**

- SF-1449
- Offeror Submission Package (OSP)
- Applicable fill-in clauses/provisions (See RFP Section J)
- Quality Control Plan Outline (estimated 2 pages in length)
- Representations and Certifications (See RFP Section K)
- F76 Traceability Page (only applicable for F76 offers)
- Supply Commitment Letter (Non-manufacturers Only) (See RFP Text L704)
- Small Business Subcontracting Plan (Large Businesses Only)

- **Offer Submittal Through the Offer Entry Tool (OET):**

- Ensure entity has access to the OET
- STRONGLY RECOMMENDED to login and test the system prior to submitting your offer
- Avoid being in a position where you are unable to submit by the deadline if your account is locked, you are having system issues, or if another unforeseen issue arises

Supply Commitment Letter

- **Supply Commitment Letter**

- Only applicable to Non-manufacturers
- Submit no later than Interim Proposals
- Verified during negotiations

In accordance with L704(c) Evidence of Responsibility (DLA ENERGY- BULK)

- Must include the following information
 - Volume to be supplied
 - Specifications of product(s) to be supplied
 - Points of delivery and period of contract performance
 - Escalation provision(s) applicable to the product(s) to be supplied; and
 - Supplier's delivery and inspection terms and conditions
- Best Practice: Letter(s) should contain phone and email contact information of the signatory to verify its validity

Price Escalators

- **DLA Energy's Default Price Escalators**

- DLA Energy chooses a default price escalator for JAA, JP5, and JP8, and a default escalator for F76. Escalators in the RFP are listed in the OET.

- **Alternate Price Escalators**

- Defined as any escalators proposed on the basis for economic price adjustments other than the escalators listed in the solicitation
- Use of an alternate price escalator should be submitted as an exception request in Section M and will be evaluated for acceptance by the government prior to approval for use
- An amendment to the solicitation will be issued for approved alternate escalators

- **Escalator Choice**

- **DLA Energy will NEVER direct the contractor as to which escalator to choose. This is a business decision alone.** Example: If the offeror chooses an F76 escalator for JAA, there is nothing in the solicitation which states this is prohibited
- Please take the time to understand the escalator function (i.e. how the calculation works) ahead of using the escalator and be mindful of the products listed in the section before choosing

Negotiations

- **DLA Energy's Intent to Award**

- Government reserves the right to conduct formal discussions, if later determined by the Contracting Officer to be necessary
- Formal discussions may include:
 - Formal Negotiation Letters sent via email
 - Face-to-Face or Virtual Negotiation Meetings
 - Teleconferences
- **Please note:** Responses to negotiation letter issues are to be uploaded into the OET in addition to sending as an email. *The OET remains the official means of submission to be considered part of the offer* (See Solicitation Note #1). If the OET is not open, it is acceptable for email alone, but **must be addressed in the letter format and approved by the contracting officer**
- DLA Energy will not consider email communications alone to be part of the official proposal

Evaluation

- **Offer Evaluation Method**

- Lowest price, technically acceptable source selection process described under FAR 15.101-2
- Section M, FAR 52.212-2 Evaluation – Commercial Items (NOV 2021)
- Tradeoffs will not be permitted in this acquisition

- **Factor 1: Technical Acceptability**

- Offer conforms to material solicitation requirements in the following subfactors:
 1. Supplies or Services and Prices/Cost, Section B:
 - (i) Offer meets all schedule requirements in Section B
 - (ii) Offered line items meet the delivery requirements of the schedule for additives required
 - (iii) Offered line items meets the delivery requirements of the schedule for mode and FOB point
 - (iv) Offer line item meets the required minimum and maximum quantity of the schedule
 2. Description/Specifications/Statement of Work, Section C:
 - (i) Offer meets all specification requirements outlined in Section C provisions
 - (ii) For F76 offers, offer includes a completed and signed Traceability form for F76 fuel offers in accordance with Provision C16.23 FUEL, NAVAL DISTILLATE (F76)

Evaluation

- **Factor 1: Technical Acceptability (Continued)**

- 3. Inspection and Acceptance, Section E:

- (i) Offer meets all inspection requirements outlined in Section E Provisions
 - (ii) Offer certifies that it has a Quality Control Plan (QCP), On file with DLA Energy that is no more than 24 Months old or provide an outline, not to exceed two pages in length of a proposed QCP describing the offeror's current inspection system and quality assurance procedures, with references to the corresponding requirements in provisions E1

- 4. Deliveries or Performance, Section F:

- (i) Offer meets all requirements outlined in Section F provisions
 - (ii) Offer includes completed information under Sources of Supply for all products and shipping points
 - (iii) Offer includes completed information under Parcel Shipping Sizes and Daily Capacity for all products, modes and shipping points offered
 - (iv) Offer includes completed information under Tanker and Barge Loading Facility Data (if offering via Origin Barge/Tanker mode)
 - (v) Offer includes completed information under Port Restrictions (if offering via Origin Barge/Tanker mode)

Evaluation

- **Factor 2: Price**

- DLA Energy uses a computer evaluation model, the Bid Evaluation Model (BEM), to factor in numerous variables
- Variables include the offerors' offered prices, fuel types and quantities, minimum and maximum award quantities, offered locations, shipment mode capabilities, minimum and maximum cargo sizes, customer receipt locations, receipt mode capabilities, and any other conditions included in the offerors' proposals
- The BEM calculates the overall distribution of fuel from offerors' facilities to specific customer locations that is the lowest total combination of price for product and transportation

Offer Entry Tool (OET) Overview

DLA
DEFENSE LOGISTICS AGENCY
Established 1961

The Nation's Combat Logistics Support Agency

Bulk Offer Entry Tool (OET)

Sean Lucas
Bulk Petroleum Purchase Analyst
April 2024

WARFIGHTER ALWAYS

AGENDA

- What is the Offer Entry Tool (OET)
- Solicitation/OET Sequence
- Getting Access
- Parts of an OET Offer
- Best Business Practices
- Getting Help with OET

OFFER ENTRY TOOL (OET)

- **OET**
 - A web-based tool for use in submitting offers
 - Replaces the hard copy offer submission package
 - URL: https://oet.energy.dla.mil/epst_oet/oet.html
 - Bulk vs PC&S/Into-Plane sections of OET
 - Three Different business units to choose from once logged in
- Is OET required?
 - Solicitation will state if OET is mandatory
 - IEG, RMW, AEM, WPC and Deep Freeze use OET
 - OET offers must comply with solicitation closing date/time

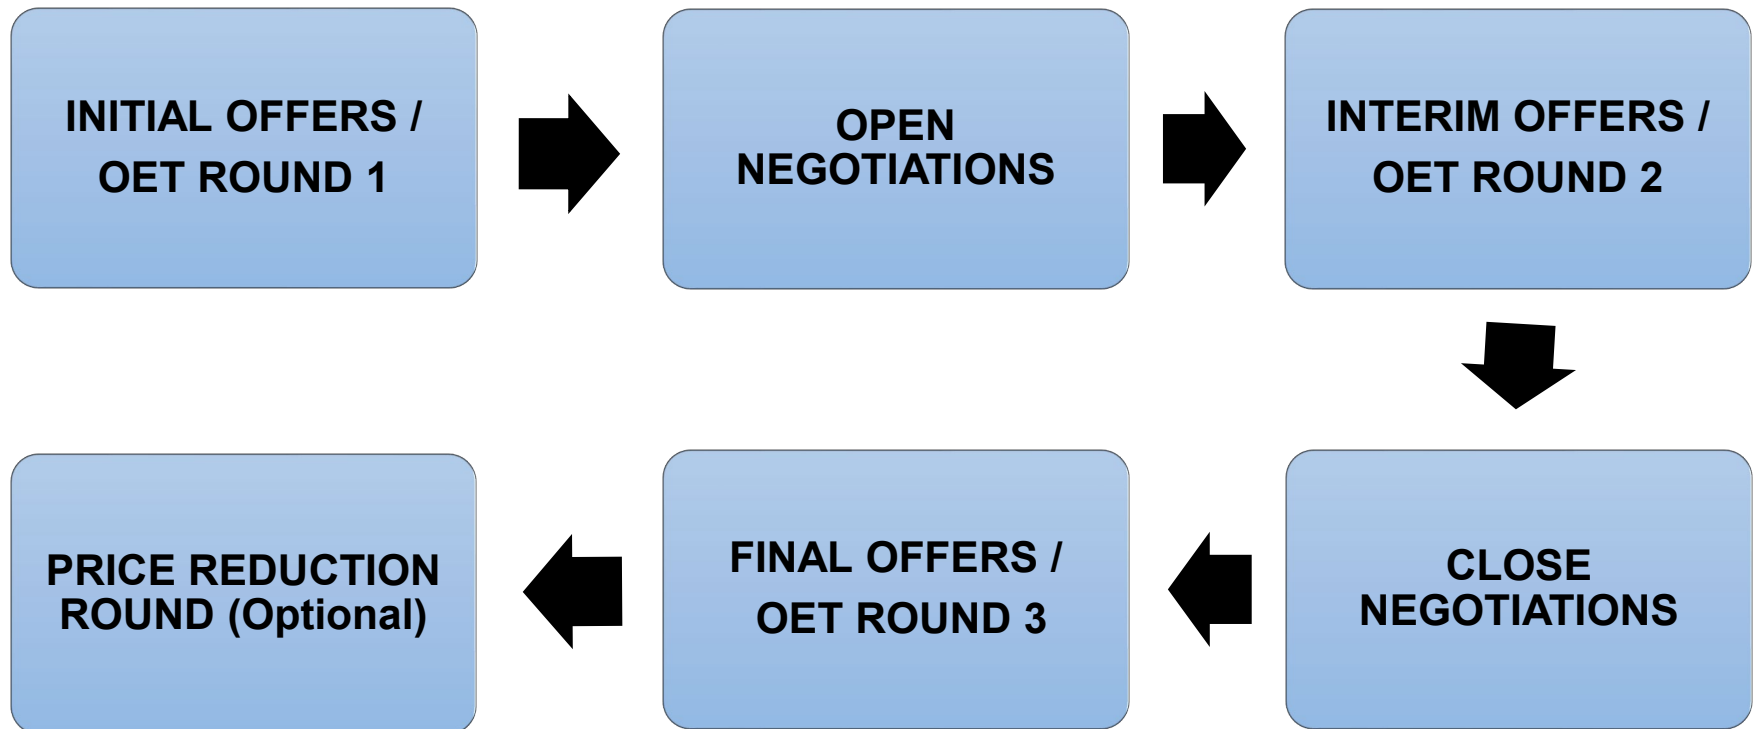

Solicitation/OET Sequence

- Solicitation gets posted to [SAM.gov | Home](https://sam.gov)
- OET is opened
- Vendors receive automated email notification
- Vendor inputs offer in OET, and submits
- OET round closes
- Offers are imported into the Bulk Bid Evaluation Model (BEM)
- Review/evaluation

OET Rounds

OET Rounds

- **Initial**
 - Initial offer must be submitted prior to the closing date/time to be eligible for later rounds
- **Interim**
 - Used at the Contracting Officer's discretion
 - There may be more than one interim round
 - Participation is optional
 - If no offer is submitted during an interim round, previously offered data is retained
 - Last opportunity to add shipping points, exceptions and to submit supply commitment letters
- **Final Proposal Revision (FPR)**
 - Last round before Price Reduction
 - Some data fields will be locked but able to delete sequence lines
- **Price Reduction Round (Optional)**
 - Used at the Contracting Officer's discretion
 - Only price can be changed

OET Access

- First, obtain a **CAGE CODE** for your company
 - Register at [SAM.gov | Home](https://sam.gov) for a CAGE code
 - Your OET account is linked to your CAGE code(s)
 - Multiple users per CAGE code is allowed
- Create an account in the Account Management And Provisioning System (AMPS) to apply for OET access
 - <https://amps.dla.mil>

OET Access

- Next, Log into your AMPS account to request the OET role
 - Click 'Energy Applications' on the Browse Roles by Application Tab
 - Select 'Energy OET'
 - Select 'Energy OET Prod – PC&S Ground Vendor Role OET - 100'
 - Complete all information and submit request
- OET Username and password will be sent to you via email from the EPST Provisioner
 - User ID and Password for AMPS are NOT the same as for OET

OET Access

- **Access**
 - Allow 3-5 business days after submission for OET access
 - Log in every 30 days per DoD policy to avoid account deactivation
 - Do not share your username or password
 - Only the Account Holder can submit for reset of account/password
 - Passwords expire every 60 days (users will be prompted to change)
 - Revalidate your PC&S OET-100 AMPS role annually
- **Account Settings**
 - Use the same company name as the one linked to your CAGE
 - Select the purchase programs you're interested in
 - Use individual email, no group mailbox emails
 - If you are not receiving emails, check your Junk mail and internal firewall settings

OET Access

IMPORTANT!!

- ➡ Do not share your OET username or password with anyone!
- ➡ OET accounts are individual accounts, not group accounts!
- ➡ If you do not log in for 30 days your account will be de-activated!
- ➡ Revalidate your PC&S OET-100 AMPS role annually or your OET account will be archived by the DLA J6

Initial Login to OET

- OET URL
 - https://oet.energy.dla.mil/epst_oet/oet.html
- Change Password (required every 60 days per DoD policy)
 - Minimum 15 characters
 - At least 1 Upper case, 1 lower case, 1 number, 1 special character
- Update 'My Account' information
 - Use the exact Company Name as depicted in SAM (25 characters max)
 - E-mail address for notifications
 - Company size status
 - Select your purchase program under Buy Selection

Parts of an OET Offer

Three Primary Sections to OET Offer data:

1. **My Account**

- Update contact information
- Change password

2. **Offer Details**

- Shipping points, products, quantity and price
- Offer conditions
- This is the data that is sent to the BEM
- Attachments
- Exceptions (Section M)

3. **Offer Submission Package (OSP)**

Refinery Shutdown Info

If you have no refinery shutdown information, leave this chart **BLANK**

Schedule Of Refinery Shutdowns For Turnarounds

The offeror shall furnish to the Contracting Officer a refinery shutdown schedule for the contract period. DLA Energy will review the offered quantity, parcel sizes, and lift intervals in conjunction with the turnaround period to ensure that the entire offered quantity can be delivered during the performance period and will meet operational requirements.

The offeror shall provide the following information for each product offered:

Refinery Location (Load Point)			Shutdown Period		Impact Of Shutdown Period On Supply Availability		Search <input type="text"/>	
?			?		?			
No data available in table								
Showing 0 to 0 of 0 entries								

Unless the offeror states otherwise, the offer will be evaluated on the basis that there will be no refinery shutdowns for turnarounds that will have an impact on supply availability.

Conditional Statements

- You can use conditional statements in your offer
 - Make sure your conditions do not conflict
- You can offer overall max/min quantities, or by
 - Product, Mode, Shipping Point
 - Use Vendor Notes if necessary
- You cannot tie two shipping points, or two different products together:
 - Read Section M of the solicitation

Best Practices

- **Submitting Offers**

- Real time and auto-saved
- Download and review Offer Submission Package
- Review Bid Package Report
- Select “Submit Offer Package” to submit offer
 - You will get an error message if critical info is missing
- Enter password again and submit
- Watch for a confirmation email
- Enter OET after submission... VIEW/EDIT
 - VIEW allows you to view the offer, not make changes
 - **EDIT** will un-submit your offer! You will be able to make changes, but **you must submit your offer again**
- Do not submit a “place-holder” offer/submit best offers in the initial round
- Do not wait until the last minute to submit
- Keep your OET account current (log in once every 30 days)
- Read the solicitation and familiarize yourself with the clauses and schedule

Getting Help

- OET User Manual
 - Available on the OET main page
 - https://oet.energy.dla.mil/epst_oet/oet.html
- For questions specific to the offer, please contact the Contracting Officer listed on the solicitation
- If you are unable to access OET or your OET account is locked, please email the DLA Energy Bulk Technical Team:
 - DESC-BTechTeam@dla.mil
- For questions concerning the functionality of OET, please contact:
 - Sean Lucas, Sean.Lucas@dla.mil, (571) 767-8407

WARFIGHTER ALWAYS

Reminders

- The Section headings in the OSP are mirrored in the OET
 - Ex. Parcel sizes in the OSP are entered using the “Parcel Sizes” button in the OET
 - The data in the OSP is shown in the same order as in the OET. If the vendor completes the first screen, top to bottom, then the second screen, that is the same order as the OSP
 - The first screen of OET is Sections A-E of the OSP
 - Second screen is Sections F- O of the OSP

G. PARCEL SHIPPING SIZES & DAILY CAPACITY

1. For Truck and Railcar:

a. State the Loading/Movement Capacity for FOB ORIGIN offers:

Product / Mode	Shipping Point	Days of Week Terminal Open	Hours Each Day Terminal Open	No. Of Racks	Max Loads Per Normal Work Day*
No Data for Loading/Movement Capacity for FOB ORIGIN Offers					

* NOTE: On items calling for delivery by transport truck, FOB origin, the contractor shall, without additional cost to the government, use trucks to receive shipments, proceed to using activity, and arrive no earlier or later than the scheduled arrival times (assuming normal truck using activity). OFFERORS ARE REQUIRED TO INDICATE THE DAYS OF THE WEEK WHICH THE TERMINAL WILL BE OPEN. For FOB Origin Truck offers, 'Normal Work Day' shall be defined as an 8-hour period of time between the hours of 0400 (4:00 a.m.) and 1200 (12:00 p.m.).

VENDOR NOTES:

b. State the Loading/Movement Capacity for FOB DESTINATION offers:

Product / Mode	Shipping Point	Min Daily Quantity	Max Daily Quantity	Days Available for Delivery
No Data for Loading/Movement Capacity for FOB DESTINATION Offers				

VENDOR NOTES:

OFFERORS ARE REQUIRED TO INDICATE THE DAYS OF THE WEEK WHICH THE TERMINAL WILL BE OPEN.

2. For Pipeline:

a. State the pipeline that the product will move through and the minimum and maximum quantities (parcel sizes) available in barrels (BBLs) for (deliveries) into each pipeline (please state if there is no interval):

Product	Shipping Point and Pipeline	Minimum Qty (BBLs)	Maximum Qty (BBLs)	No. of Days Between Each Lift / Delivery
No Data for Pipeline Quantities				

VENDOR NOTES:

NOTE: Unless you define otherwise, lift interval is the time between completion of loading (when cargo completes passing the custody transfer) to next delivery for a specific product. Lift intervals are based on delivery of maximum parcel size for each shipping point. If a quantity less than maximum is delivered, the lift interval is reduced on a pro-rata basis.

3. For Barge or Tanker:

a. State the minimum and maximum quantities (parcel sizes) available in barrels (BBLs) for each delivery and the minimum number

Product / Mode	Shipping Point	Minimum Qty (BBLs)	Maximum Qty (BBLs)	No. of Days Between Each Lift / Delivery
No Data for Barge/Tanker Parcel Sizes				

VENDOR NOTES:

4. Would the parcel size/lift interval for one product or mode impact the available parcel size/lift interval for any another product or mode?

NOTES:

A. FOR EVALUATION PURPOSES ONLY: DLA ENERGY will add 5 days to offered FOB Origin tanker lift intervals and 3 days to offered FOB Origin barge lift intervals under a resultant contract. Additionally, if multiple lift intervals are offered, DLA ENERGY will evaluate the maximum quantity for award based on operational scheduling realities and will be used only for evaluation purposes. The Government reserves the right to schedule lifts in accordance with the lift interval available for award based on lift intervals is less than the total quantity offered for award, the Government will limit evaluation for award to the calculated maximum Government's evaluation factors for tanker and barge lift intervals to assure lift intervals and parcel sizes provide for full evaluation of total offered quantity for all

B. Unless you define otherwise, lift interval is the time between when the vessel completes loading (released by the Government Inspector) until the Scheduled De

➤ **K F3.02 TRANSPORT TRUCK AND/OR TRUCK AND TRAILER FREE TIME AND DETENTION RATES (BULK/LUBES) (DLA ENERGY JUN 1996) FOR FOB DESTINATION OFFERS BY TRUCK**

(a) Upon arrival of Contractor's transport truck or truck and trailer, the receiving activity shall promptly designate the tanks into which the load is to be discharged. Free time will commence at the time the discharge hose is connected to fill pipe at the delivery point specified and will end when discharge is completed. For items involving multiple drops, time between drops will not be included in free time. Contractor shall be paid for detention beyond free time for delays caused by the Government. A minimum of one hour free time is required. Rate for detention shall be computed governing the local area of receiving activity.

Shipping Location (Load Point)	Free Time for Unloading Transport Truck or Truck and Trailer (in hours)	Rate For Detention Beyond the Free Time (in dollars: per hour)

O. GENERAL COMMENTS

Please include any general comments or notes that you wish to include in your offer in the area provided.

General Comments
N/A

Best Practices

- **Submitting Offers**

- The vendor should complete the “Shipping Point Physical Abilities” screen first, then move on to the offer
- If an error message is received, read the message
- There are small question marks throughout the OET. Clicking on these will generate help for that screen

Getting Help

- OET User Manual
 - Available on the OET main page
 - https://oet.energy.dla.mil/epst_oet/oet.html
- For questions specific to the offer, please contact the Contracting Officer listed on the solicitation
- If you are unable to access OET or your OET account is locked, please email the DLA Energy Bulk Technical Team:
 - DESC-BTechTeam@dla.mil
- For questions concerning the functionality of OET, please contact:
 - Sean Lucas, Sean.Lucas@dla.mil, (571) 767-8407

Bulk Bid Evaluation Model (BEM)

DLA
DEFENSE LOGISTICS AGENCY
Established 1961

The Nation's Combat Logistics Support Agency

Bulk Bid Evaluation Model (BEM)

Sean Lucas
Bulk Petroleum Purchase Analyst
April 2024

Bulk Petroleum Products

- Manage very large volumes of petroleum products
- Fewer contracts with large dollar values
- Estimated quantity with high minimum lift guarantee (75%)
- Awards on FOB Origin and FOB Destination Basis
- Extensive use of commercial distribution systems
- Distribution may be direct to demand point or through intermediate Defense Fuel Supply Points (DFSPs)
- Socio-Economic considerations
 - Small Business Set-asides (Price Matching)
 - HUBZone Premium Program
 - 8(a) Reservations

Bid Evaluation Model

- BEM is a mixed-integer linear optimization program used to find the minimum **laid down cost** for the entire procurement
- Laid Down Price includes:
 - Offered product price
 - All transportation costs
 - All additive costs
 - All intermediate DFSP distribution costs (fixed and variable)
 - Excess throughput charges
 - Applicable evaluation factors
 - Base Reference Price evaluation factors

BEM Data

- **Enterprise Business System (EBS)**
 - Requirements and solicitation data
 - Amendments
 - Contract Awards
- **Contract Information System (CIS)**
 - Amendments (schedule changes)
- **Transportation Rates Information System (TRIS)**
 - Transportation rates
- **Offer Entry Tool (OET)**
 - Initial offers and subsequent revisions
 - Additives, Escalators, DFSP costs, Evaluation factors

Offer Conditions

- Offer conditions is optional
- BEM evaluates complex offers
 - Tiered pricing
 - Volume restrictions (Minimums and Maximums)
 - Multiple load capabilities (modes of transportation)
 - Additive injection capabilities
 - Offer conditions such as “Either/Or” and “One before Two”
- Conflicting Conditions
 - Conditional statements must not conflict with each other (i.e.: Minimum award by Tanker is 5 million and overall maximum award is 3 million)

Evaluation Example

Offers

A: 6,000,000 USG by TT @ \$2.95/gal
B: 6,000,000 USG by PL @ \$3.00/gal
C: 1,000,000 USG by PL @ \$2.98/gal

Intermediate Depot Support Available
Into X by PL, out by TT to all Req
Into Y by PL, out by TT to all Req

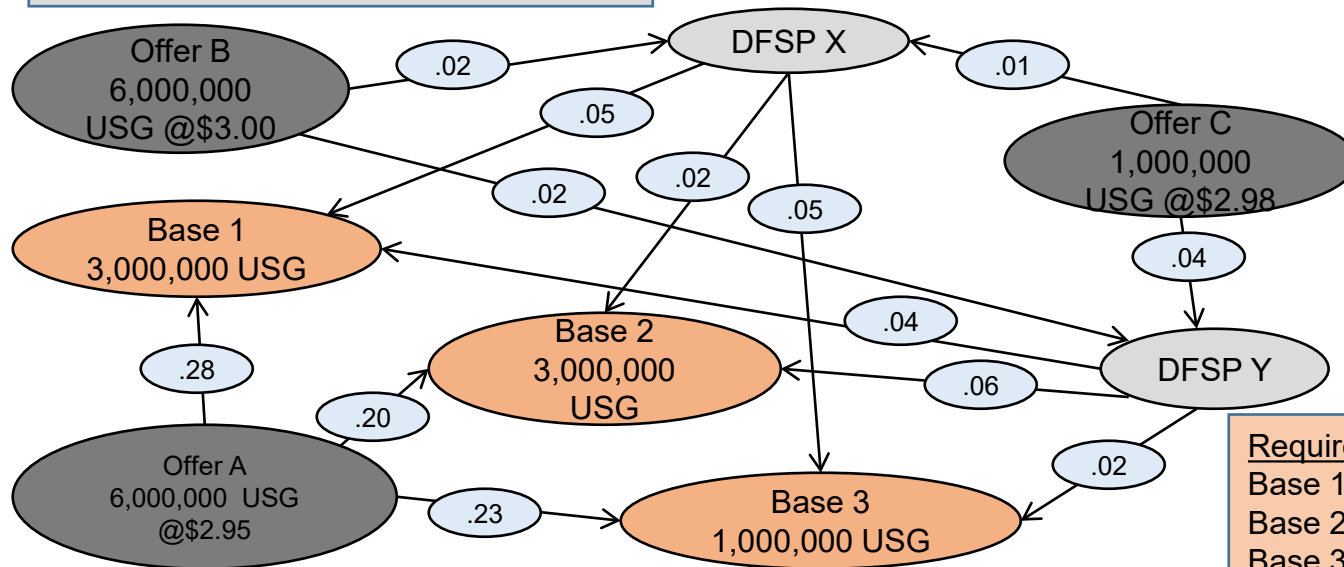

Evaluated on Offered Price Only:

Req 1 – Offer A (total cost \$3.23/gal)
Req 2 – Offer A (total cost \$3.15/gal)
Req 3 – Offer C (total cost \$3.04/gal)
Total cost: \$22,180,000

Evaluated on Laid-Down Cost:

Req 1 – Offer B (total cost \$3.06/gal)
Req 2 – Offer C (total cost 3.01/gal)
Req 2 – Offer B (total cost \$3.04/gal)
Req 3 – Offer B (total cost \$3.04/gal)
Total cost: \$21,310,000

\$870K Savings
Distribution Plan Generated

Requirements

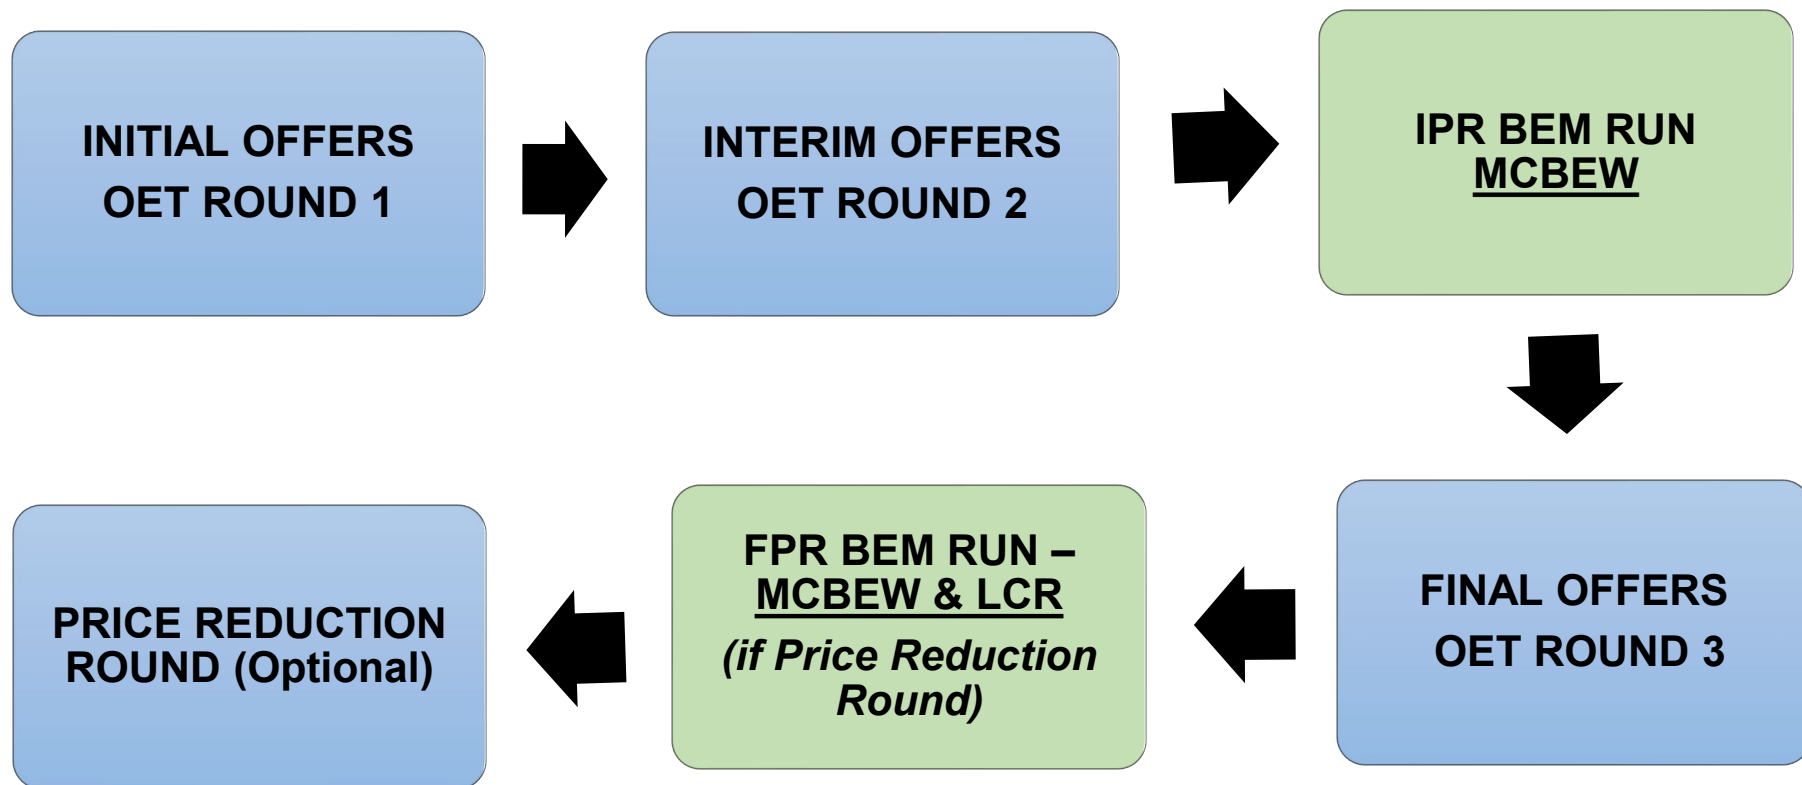

Base 1: 3,000,000 gallons received by TT
Base 2: 3,000,000 gallons received by TT
Base 3: 1,000,000 gallons received by TT

PL = Pipeline; TT = Tank Truck

NOTE: When determining the vendor in line for award, the lowest laid-down cost is taken into account. A vendor may appear to be the best award choice for the government based on their offer price being the lowest, but once evaluation costs such as adjustment factors and/or transportation rates are applied, this will determine which vendor (dark grey oval) is the lowest laid down cost for the Government. There are intermediate DFSPs (light grey oval) to requirements locations (orange ovals) that have different transportation costs (light blue oval). The BEM will evaluate the best route based on the cheapest costs along the route.
