

Worldwide Energy Conference

April 22-24, 2024

Gaylord National Hotel and Convention Center | National Harbor, MD

www.DLAEnergy-WWEC.com

EXHIBITOR PROSPECTUS

The 2024 Worldwide Energy Conference, powered by Defense Logistics Agency (DLA) Energy, is the leading event for anyone involved in the energy supply chain sector. The conference draws more than 2,300 high-level Department of Defense employees, contractors, and top industry experts to discuss current trends and initiatives in the petroleum, aerospace and renewable energy fields.

“This is my first time at the conference and it’s been awesome. It is enlightening to see the potential vendors and contractors DLA Energy calls on to support the warfighter and establish our global posture.”

— Dave Lamm,
DLA Energy
International Agreements

When you exhibit here, you’ll connect with thousands of decision makers and buyers actively assessing the latest technologies, services, and projects for today’s energy projects. There’s no better place to network and build relationships directly with your target market—ensuring premium exposure and optimum return on investment.

Exponential Access

The DLA Energy Worldwide Energy Conference offers an unparalleled opportunity for your company to gain visibility and forge relationships with influential purchasers responsible for more than **\$10 billion** in energy procurement annually.

Gain Access to Decision Makers from Across the Entire Energy Supply Spectrum*

Primary Areas of Interest*

“The conference was an excellent opportunity to network and talk to DLA and U.S. Navy Senior Management all in one location. Everyone was friendly, professional and amenable to giving their time to allow me to present my business and the ongoing activities of interest, and the conference presentation sessions applicable to my business were interesting, relevant and well presented. There was a lot of information shared and relationship building in a short space of time.”

— David Attewill, CEO,
Philippine Coastal Storage and Pipeline Corporation

Attendees by Job Type*

Energy Acquisition	28.0%
Business Support	23.2%
Business Systems	10.3%
Facilities Sustainment	10.3%
Customer Operations	8.5%
Quality and Technical	7.5%
Fuel Operations	7.2%
Service Control Point	4.4%
Small Business	0.6%
